

## **How to build a pipeline on Jenkins**

Step 1: Login to your Jenkins by providing the username and password

Step 2 : In the Jenkins dashboard click on New Item. In the New Item give a random name and select the type of project ( e.g. FreeStyle , Pipeline etc). Click on OK

Step 3 : In the job configuration page,scroll down to the “Pipeline section”. Choose “Pipeline script” and enter your pipeline code . Click “Save” at the bottom of the page to save your configuration.

Step 4 : Click on “Build Now” to start building your pipeline on Jenkins .
